## Returns

### **1: Aziz Rasuli -New Name & New Device**

*Per bend gules and azure, an ass statant argent and a human shin + foot couped argent, pierced with a passion nail Or.*

Unfortunately, this name must be returned for insufficient documentation. Neither the given name nor the byname were documented to period, and while religious texts are sometimes a good starting point they are often problematic to use when attempting to document a name or spelling to a particular time and/or culture. Additionally, the name construction needs additional work. We recommend looking at <http://heraldry.sca.org/names/arabic-naming2.htm> as a starting point.

The device must also be returned at this time, as all armory must have a name under which to be registered.

(Note: the shield shape should be approximately 12.5 cm wide and 9.5 cm tall when painted.)

### **2: Beornwyn Bjarnardóttir - New Device (see ACCEPTANCES for name)**

*Per fess wavy azure and vert, three polypuses Or.*

Unfortunately, this must be returned for conflict with the device of Stephen Hamersmythe of Dragon's End, registered in February of 2013 (via AEthelmearc): *Per pale azure and purpure, three polypuses Or.*

There is a Distinct Change for the field, but as two DCs are required for difference, this device must be returned at this time.

(Note: the shield shape should be approximately 12.5 cm wide and 9.5 cm tall when painted.)

### **3: Wulfwyn of Black Diamond -New Device**

*sable, on a rondel argent, a paw print sable, a bordure argent.*

This device must be returned for conflict with the device of Kolvallr Hergeirsson, registered in April of 2009 (via Trimaris): "Sable, on a plate a clenched gauntlet sable, a bordure argent." While there is one DC for change in type of tertiary charge, two DCs are required to clear conflict.

(Note: the shield shape should be approximately 12.5 cm wide and 9.5 cm tall when painted.)

### **2: Roanna de Caerdydd - New Name & New Device**
