Returns

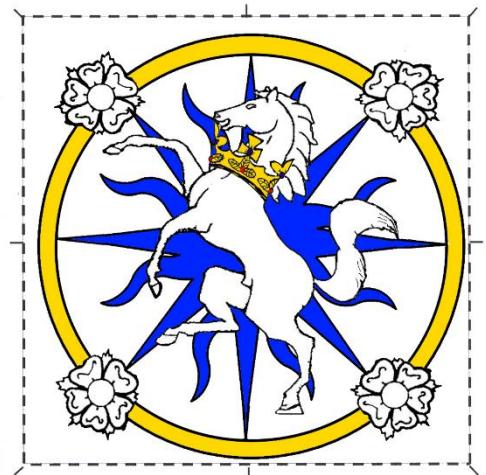

1. Adelhait Fuchs -New Badge

(Fieldless) A horse rampant argent irradiated azure gorged of a ducal coronet Or within and conjoined to a chaplet Or of four roses in saltire argent.

This badge has two areas that need to be corrected. First is the use of irradiation. The irradiation isn't drawn correctly. In the return of the device and badge of Alexandru Morarul in May 2017 (attached) it was ruled

"This device is returned for a redraw. A proper depiction of irradiated has alternating points and rays issuant perpendicular from the edge of a charge. Many period charges that were irradiated were round, and so it appeared as if they were placed on a sun (hence "en soleil"), but non-round charges were also irradiated.

Given the complex silhouette of most animate charges, care must be taken in the resubmission to maintain identifiability and consistency of the rays and points. The second is a contrast of metal on metal. A horse argent, maintaining a dukcal coronet Or
