1. Matteo Alessandro Ulisse Rugieri - New Device Change

Per chevron barry wavy azure and argent and gules, two sea-lions, the dexter sea-lion maintaining a mullet, and a ship Or.

Old Item: Per chevron barry wavy azure and argent, and gules, two sea-lions and a ship Or, to be released.

This item is being pend as there was confusion of the intent of the submitter. Was the intent just to add the mullet Or as an augmentation or to change the device by adding a third tincture of barry gules to the device along with the star? As drawn the device emblazon dos not match the blazon. Also there is a problem style wise visually the mullet as drawn does not have good contrast with the field or the sea lion maintaining it. Suggested fixes for the mullet was to change the tincture and place it upon the sea lion or move it into the gules section of the chevron about the ship.

(Note: the shield shape should be approximately 8 inches (20.3 cm) wide and 6 inches (15.2 cm) tall when printed.)
